

The HSI STEM Resource Hub

Spring and Summer Events!

- Workshop - Miramar College, San Diego, CA January 9-10
- Workshop - Clovis Community College, Clovis, CA January 24-25
- Online Workshop - Combined 2-day workshop for Hunter College & EDP University of Puerto Rico, Miami Dade College, Northeastern Illinois University due to COVID-19.
May 14/28
- Online Workshop - Combined 2-day workshop for Hunter College & EDP University of Puerto Rico, Miami Dade College, Northeastern Illinois University due to COVID-19.
May 15/29
- Jumpstart Grantsmanship Webinar Summer Series May-July.

THE HSI STEM PROFESSIONALS NETWORK:

The NSF HSI STEM Resource Hub facilitates research collaborations across the country for Network Members by providing access to a member directory where scientists can find members of the HSI STEM Professionals Network.

The directory is a great place to find scientists ready to partner for collaborative research and grantwriting.

Many members of our HSI STEM Professionals Network have been trained by the Hub and Hub Partners in Grant Writing and Management, STEM Pedagogy, Institutional Capacity Building, and Multicultural Awareness. Network Members can also disseminate open-access resources for the community of practice on the NSF HSI STEM Resource Hub Website.

OUR NETWORK ENGAGES:

- **483 Network Members**
- **230 Colleges and Universities**
- **20 States and Puerto Rico**

We offer

Workshops and Mini-Grants!

JUMPSTART GRANTSMANSHIP WORKSHOPS:

The NSF HSI STEM Resource Hub offers Jumpstart Grantsmanship Workshops aimed to train proposers in competitive grantwriting for science education proposals. These trainings are focused on preparing faculty currently working at HSIs and MSIs across the country. This training is free of charge for participants from HSIs and is supported by the NSF HSI STEM Resource Hub under awards 1832338 and 1832345.

GANAS MINIGRANT COMPETITION:

The NSF HSI STEM Resource Hub hosted its first GANAS Minigrant competition this year; submissions closed January 17. These planning minigrants are funded up to \$12,500 and are awarded to project leaders developing a research project, building partnerships, identifying and working with an evaluator, preparing an IRB, and writing a proposal for the NSF HSI Program Solicitation (NSF 19-540). The Hub awarded twelve proposals this year. Awardees are participating in mentorship and coaching for submission to the 2020 Call for the NSF HSI Program.

YEAR 1 WORKSHOPS

- 4 Jumpstart Grantsmanship Workshops offered in 2019
- Formats Offered: 2-day Workshops
- Locations: Las Cruces, NM; New York, NY; Pomona, CA.
- Dates: June - July

YEAR 2 WORKSHOPS & WEBINARS

- Workshop - Miramar College, San Diego, CA & Clovis Community College, Clovis, CA
- Online Workshop - Hunter College, EDP University of Puerto Rico, Hato de Rey, PR, Miami Dade College, Miami, FL & Northeastern Illinois University
- Jumpstart Grantsmanship Webinar Summer Series May - July

Coming Soon! Grant Writer Certification!
