Events and Offerings

Spring 2022

From the STEM Community

[2022 STEM FOR ALL VIDEO SHOWCASE](#) [Access, Inclusion, and Equity, May 10-17](#)

We invite you to be an active participant in the [STEM for All Video Showcase](#), an interactive 8-day event, funded by the NSF. The Video Showcase begins today and continues through Tuesday, May 17th.

The event features 267 presentations, each with a 3-minute video and an online discussion open to all visitors of the site. We hope you will share your perspective by posting to several of the discussions, and vote for your favorites for the public choice award. Voting will help spread word of the event through twitter and Facebook and enable us to reach a large public audience. Please post early in the event and often!

[The Video Showcase](#) provides an opportunity to view how programs across the nation are addressing access, inclusion, and equity in STEM teaching and learning. Many of the presentations address racial and gender inequities, and provide strategies to broaden participation for students of all ages, from the youngest elementary students to those pursuing graduate degrees. Through your participation, you will gain a broad overview of funded projects that are improving STEM education in both formal and informal environments.

HSI STEM Networking Opportunities

HSI STEM Professionals Network

Join the community of practice! This a great place to network, collaborate across states and institutions and disseminate/share your work. Membership and trainings are free of charge to our members and member institutions. Create or update your profile below.

On-Demand Virtual Training Library

You can access a variety of on-demand webinars through the Training Tab on our homepage or you can click the links below to learn more:

National Science Foundation News

NSF'S [Improving Undergraduate STEM Education: Hispanic-Serving Institutions \(HSI\) Program \(22-545\)](#) revised solicitation is now available. This program is offered by the Directorate for Education and Human Resources: Division of Human Resource Development and Division of Undergraduate Education.

Some key information from the HSI Program [solicitation](#):

The goals of the HSI program are to enhance the quality of undergraduate science, technology, engineering, and mathematics (STEM) education and to increase the recruitment, retention, and graduation rates of students pursuing associate's or baccalaureate degrees in STEM. Achieving these, given the diverse nature and context of the HSIs, requires additional strategies that support building capacity at HSIs through innovative approaches: to incentivize institutional and community transformation; and to promote fundamental research (i) on engaged student learning, (ii) about what it takes to diversify and increase participation in STEM effectively, and (iii) that improves our understanding of how to build institutional capacity at HSIs. Intended outcomes of the HSI Program include

Full Proposal Deadline(s) (due by 5 p.m. submitter's local time):

March 28, 2022

Track 1: Planning or Pilot Projects (PPP), Track 2: Implementation and Evaluation Projects (IEP), and Track 3: Institutional Transformation Projects (ITP) full proposal deadline.

August 31, 2022

Last Wednesday in August, Annually Thereafter

Track 1: Planning or Pilot Projects (PPP) and Track 3: Institutional Transformation Projects (ITP) full proposal deadline.

February 08, 2023

Second Wednesday in February, Annually Thereafter

Track 1: Planning or Pilot Projects (PPP), Track 2: Implementation and Evaluation Projects (IEP) full proposal deadline.
